FreightIQ Charter Decision Report

Freight Intelligence for Bulk Procurement • Shipment: **FIQ-2026-0001** • Mode: **DEMO** • 24 Oct 2026, 20:00 IST

DECISION STATUS: PROCEED — Recommendation is the lowest simulated-cost candidate under current parameters

1. SHIPMENT & FINANCIAL LOGISTICS SUMMARY

Shipment ID:	**FIQ-2026-0001**	**Freight Cost:**	N/A
Cargo Type:	Coking Coal	**Demurrage Exposure:**	N/A
Cargo Quantity:	75,000 tonnes	**Port / Waiting Cost:**	N/A
Origin Port:	Hay Point	**Risk Adjustment:**	N/A
Destination Port:	Paradip	**Total Expected Cost:**	**INR 8.91 Cr**
Recommended Vessel:	**Panamax**	**Effective Cost / Tonne:**	**INR 1,188 / t**

2. MARKET OUTLOOK & FREIGHT SIGNALS

Forecast source: Synthetic route-specific demonstration series (Hay Point → Paradip). Panamax & Capesize spot freight rate forward trajectories indicate route-calibrated behavior across East Coast India discharge routes. Bunker VLSFO in Singapore trades near INR 54,200/t. Port queue indices remain within normal seasonal bounds.

3. CHARTER RECOMMENDATION & CANDIDATE EVALUATION

- Recommended laycan date: 2026-09-04.
- Selected vessel class (Panamax) best matches capacity requirements.
- Evaluated for route: Hay Point -> Paradip.

4. DECISION TWIN & ROBUSTNESS ANALYSIS

Decision Robustness Score:	**38 / 100 (Sensitive)**	**Expected Decision Regret:**	INR 124.0 Lakh
Simulated Market Futures:	1,000 paths	**Recommendation Rationale:**	Delivers lowest expected risk-adjusted logistics cost across 1,000 market simulations.
